Blackcurrant has a knack for building web and mobile platforms. In just 6 years of our journey so far, we have built several applications in HVAC domain. Blackcurrant's expertise in building and scaling cloud-based systems has enabled us to deploy our applications globally.

Srinivasan,

Head of SAP & Information Technology at Stulz CHSPL India

SATMA ACE Plastics Recycling and Traceability

SATMA enables its customers to track the complete lifecycle of re-cycled plastic from its scrap and origin up till its final product. SATMA is a revolutionary software in the otherwise an unorganised plastic re-cycling space.

38,914 tons
CO2 -eq
emissions saved

28,500 tons
Post-consumer plastic
waste collected

12,000 tons
Virgin plastic replaced

SATMA is first of its kind tool that offers end to end traceability on Blockchain and we partnered with Blackcurrant to develop all our platform in an attempt to revolutionise the plastics recycling industry globally.

Ujwal Desai,
Managing Director at Lucro Plastecycle Pvt Ltd

An eLearning Web and Mobile App

BeyondSkool is the World's 1st IQ+CQ+EQ Academy for kids which goes beyond just tutoring school subjects into building knowledge and skills for children from Grade 1 to 10.

1800

Batches

900

Daily Classes

28000

Students

Essentially Blackcurrant fully built our web and mobile apps, their team was involved right from planning and envisaging product features to building and deploying to our students and teachers around the world. They always took the onus and first initiative in contributing towards product development.

Neel Sangharakshak,
Head of Product at BeyondSkool

Building a marketplace & licensing platform of premium music for content creators

Hoopr is India's first AI-powered music licensing platform for content creators that's focused on solving discovery & licensing of the right music for their videos!

25000+

Tracks

1000+

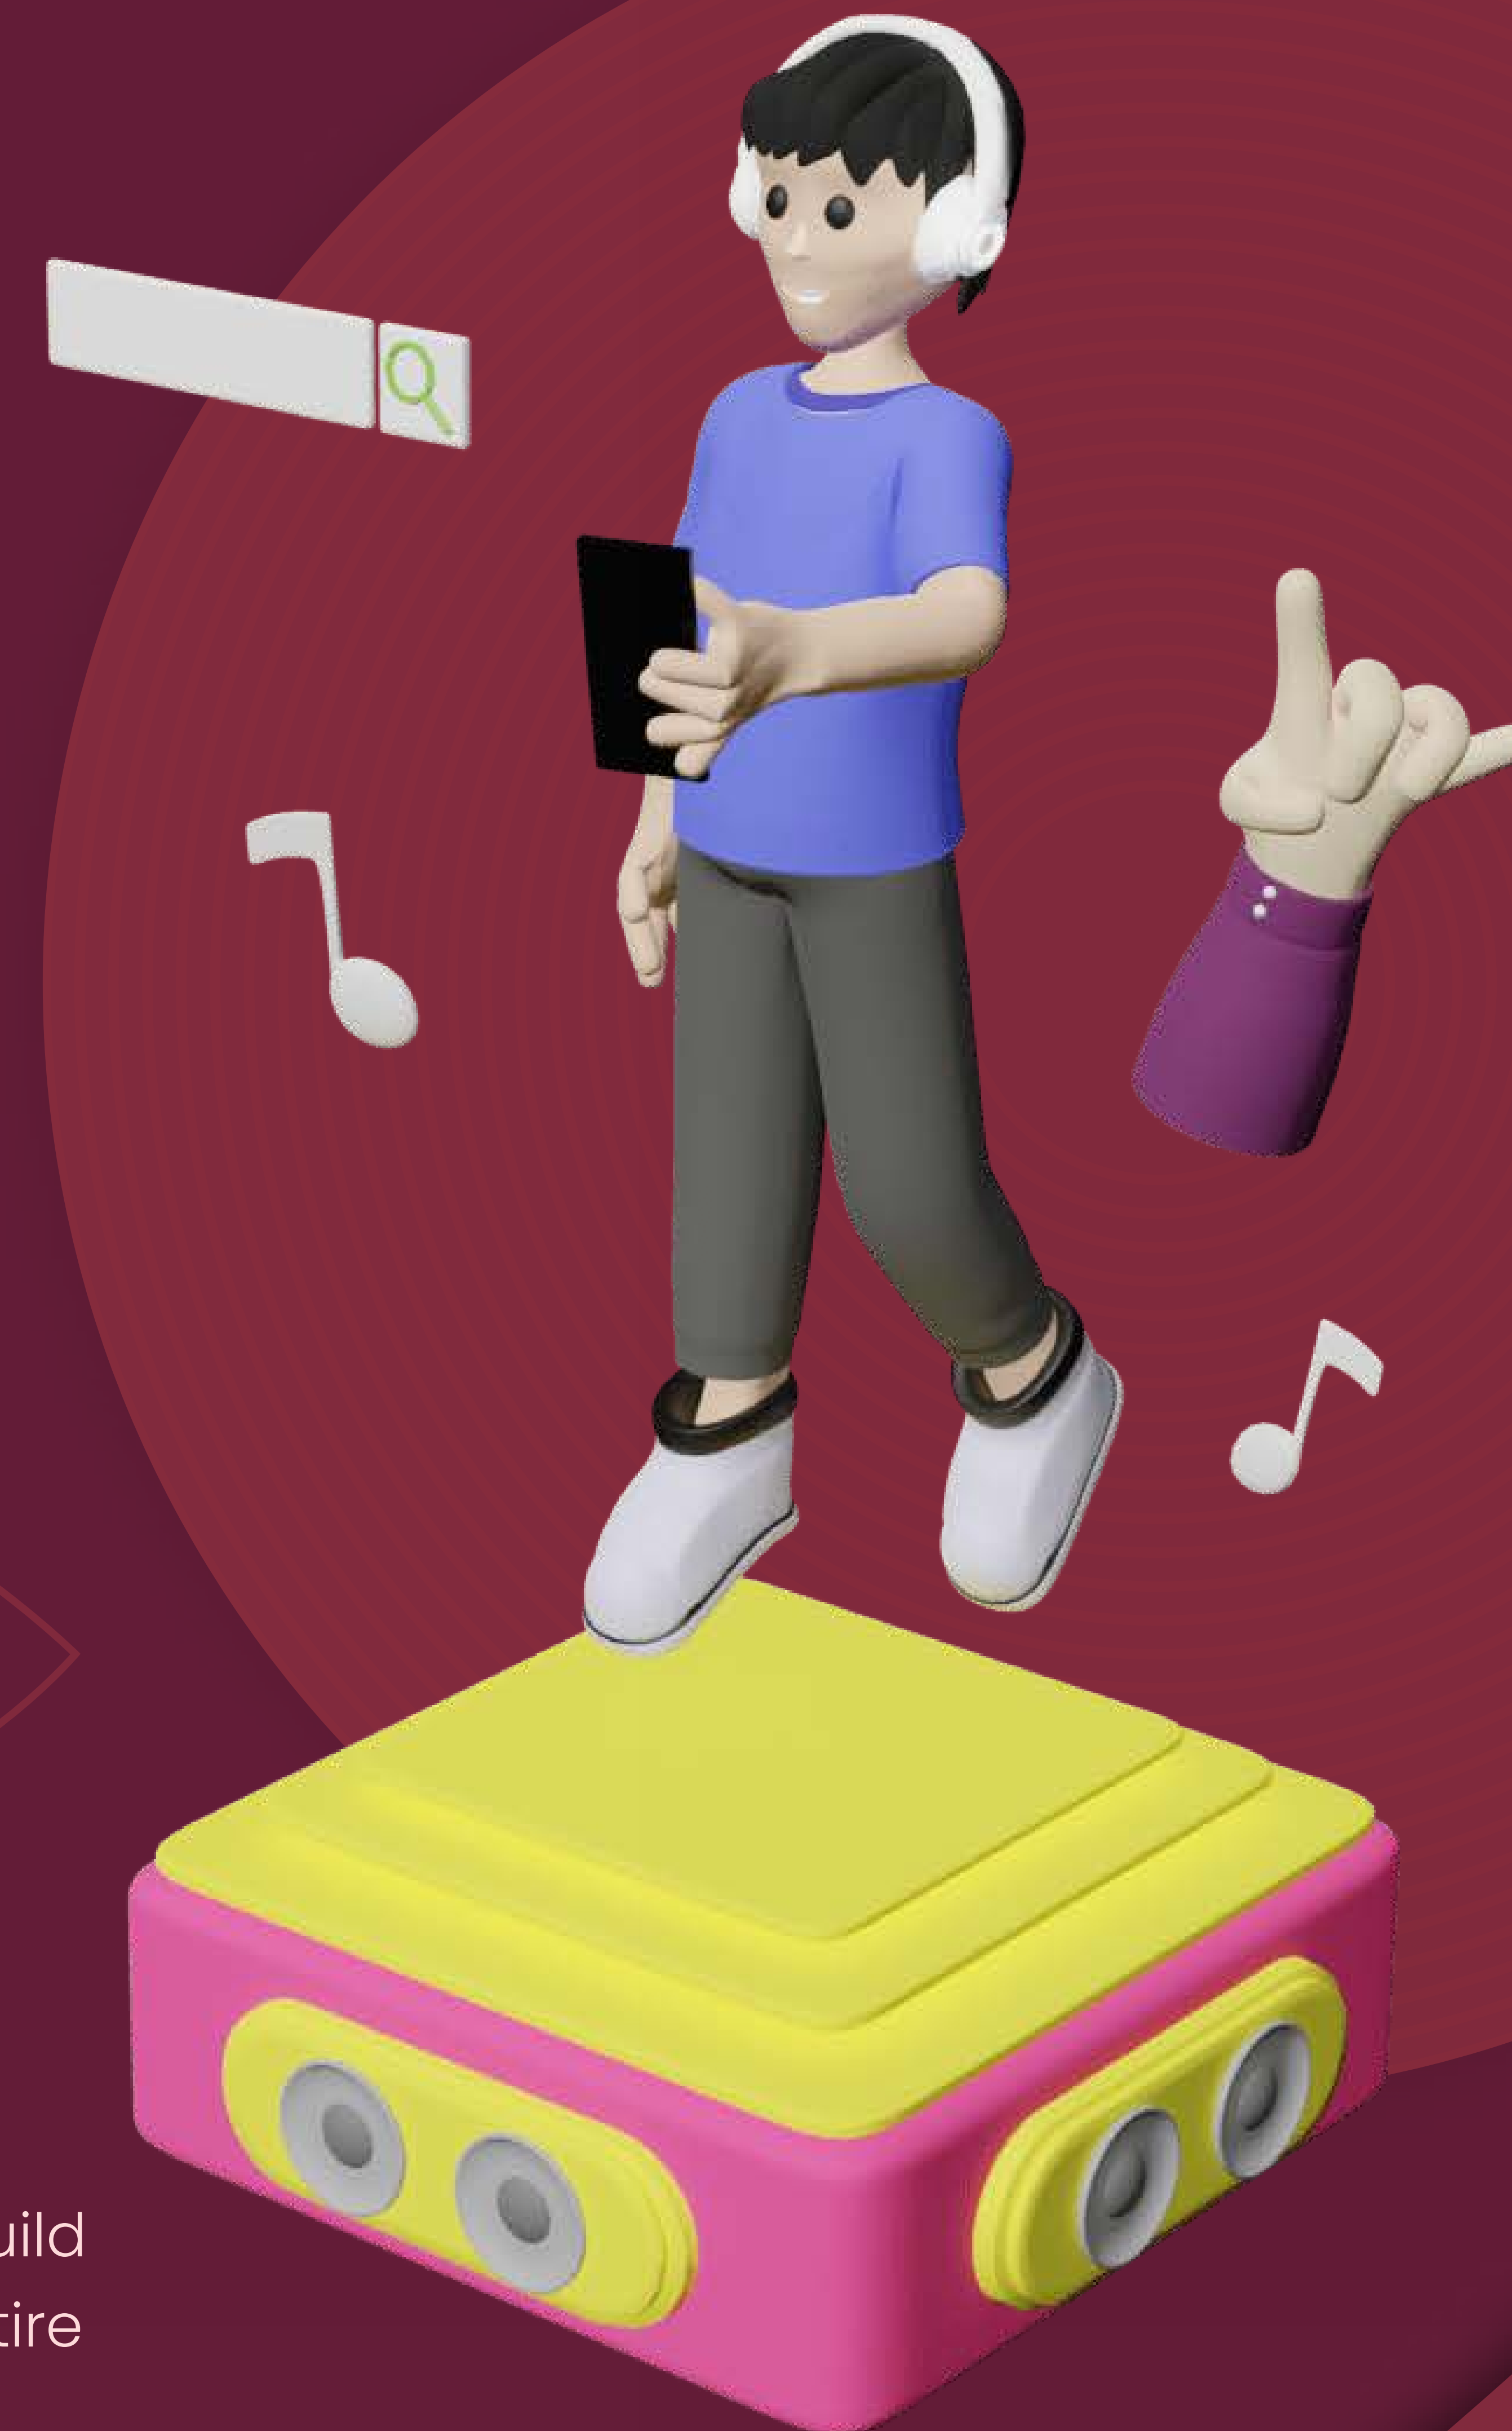

Songs streamed every hour

Blackcurrant developed and launched our platform at a rapid pace, allowing us to build and experiment with our content in an expeditious manner. We are grateful to the entire team and wish them all the success!

Gaurav Dagaonkar,
Founder & CEO at GSharp Media.
